

Attention Student Skaters:

As skaters train for many hours to achieve their goals, the Hickory Hill Figure Skating Club is pleased to notify the skaters school when tests are passed. The club will send a letter advising your school of your accomplishment requesting that the letter become a part of your permanent school record. Tests passed at the Novice level and above are reported to your school by the USFSA at the clubs request.

If you would like your school to be informed about your skating achievements, please complete the information below and mail this page to:
